of a letter to be sent to the Attorney General requesting that the government institute an action in equity against the State of Virginia to determine the boundary between that State and the District.

When the Alexandria county grand jury met, Judge Chichester made a strong declaration against the low gambling carried on by the gang of ruffians and therewe who infest the "accoss the river track." He said that Jackson City and the river front opposite Washington were the most lawless places in the State of Virginia and he wanted the grand jury to take steps to close them.

SCORED BY A JUDGE. The resumption of racing at the track on Alexander Island, known as the Old Domimon Jockey Club, is heartily deplored among reputable racing men. Two years ago Washington had a reputation for

Realizing that the so-called racing would eventually kill legitimate sport in this section of the country a delermined effort was inaugurated to close up

the track.
Strange to say the management pre-cipitated this movement themselves. The clastier of the association gave it the power of arrest anywhere within a radius of two miles from the track. Under that grant the officers of the association cap-tured a prisoner who proved to be a tar-tar. He was safely lodged in jail in Alex-dria. His attorners went before Judge drin. His attorneys went before Judge Hughes, of the United States Circuit Court of the eastern district of Virginia, and asked for his release on a writ of labeas corpus. They had been looking up the question whether Abramder Island was in Virginia or the District of Columbia, and had come to the conclusion that it was in the latter

BOUNDARY LINE QUESTION.

The history of the boundary line which they gave of the Potomac bank is interesting. After the cession by Maryland and Virginia of the ten miles square to and virginia is the certains square the historic Congress divided the territory into two counties. One was to be the county of Washington, in Maryland, and the other, Alexandria, in Virginia. The first was to consist of the landeast and north of the river, together with the island. At the time of the ession the boundary between Maryland and Virginia had never been fixed. It was conceded that Maryland had do-minion to the other side of the river, but whether to low water mark or high water together water mark or high water mark was not agreed. Maryland claimed

At his instance Attorney General Taylor Scott filled an application with Judge Weiferd, of the circuit court of Richmond, for papers granting an injunction restraining racing and gambling at Alexander Island. On January 11 Sheriff Veitch appeared at the track and served the papers upon President Isnac H Jones.

President Jones went at once to Richmond with his course, Edmund Barke, and succeeded in oldaming a stay of the preliminary injunction and a permit to continue racing until January 23, when an argument was held for and against making the injunction

Review of the Important Measures Introduced-Their Fate, and How It Was Accomplished-Financial Bill Fizzled-Reception of the President's Message-Inability of Congress to Agree.

A review of the work of the last session of the Fifty-third Congress must necessarily deal more with what was attempted to be done than that which was accomplished, since most of the important business considered has been relegated to the first

The term has been particularly marked by the inability of the Senate and the House to agree upon many of the most important problems presented to them. Much more legislation was passed by the House of Representatives than the Senate, because the rules of the House provide machinery for compelling a vote, which disposes of bills in one way or another, while the traditions of the Senate es a deliberative body permit interminable discussion and detay.

While the Democratic party mustered a large working majority in the House, the majority in the Senate was, in the beginning, a very narrow margin and gradually was overcome by the election of Republicans from four Western States, which had been represented by but one Senator each, on account of deadlocked legislatures two years before and the slating of other Republicans to succeed Democrats.

ONE IMPERATIVE TASK. Congress met on the 4th of December last with one imperative and perennial task, to frame and enact the various appropriation bills without which the wheels of the government would be somewhat in the plight of the earth if the sun were to be extinguished. Next in importance was the financial question, for which no definite plan of settlement beyond many free silver bills and various

Locb and Hirsh have sought and found. Their store at No. 912 F street northwest, is so familiar to the thousands of people that throng F street each day that it may be called a landmark. Now, comes their be called a landmark. Now, comes their masterpiece. For several weeks past the building, No. 910 F street, adjoining their establishment, has been excluded from the view of the passers by by reason of a great fence which covered the entire front. To-day the public will have an opportunity to see what it all meant—a beautiful store has grown out of the old soil. Carpenters, masons, painters, paperhangers have been in possession under the direction of Loeb & Hirsh, who have leased this store and joined it by means of a large archway to their old quarters. The outgrowth is magnificent. The two stores now occupy about 45 feet front and 100 freet in cupy about 45 feet front and 100 feet it depth. The new addition will be stocked with as complete and well-selected line of men's fine clothing as was ever seen in Wash
